Pennsylvania Test Audit Program
Bulletin #2

At a meeting of the Audit Sub-Committee held on April 22, 1987 in the office of the Pennsylvania Compensation Rating Bureau, the following administrative rules were approved to be implemented as of the meeting date:

- 1) That the premium limit of policies excluded in the Test Audit random sample be increased from \$500 to \$1500.
- 2) That the new level of premium difference be increased from \$200 to \$300. Test Audit results generating a premium difference of less than \$300 will be considered compatible with the insurance carrier's audit results in all cases. The one percent of the total earned premium standard will remain as is.
